Coastal Steel & Acoustics  
Letter of Reference

To Whom It May Concern:

We are pleased to provide the following reference and recommendation for Coastal Steel & Acoustics. Our firm has successfully completed the Ruth's Chris Steakhouse at Grande Dunes, the Atlantic Ford project, and Johnny's Suzuki Dealership. Coastal Steel & Acoustics provided light gauge metal framing, gypboard, and acoustical ceilings. Their work was of high quality and met both budget and schedule expectations. We recommend this firm highly. If you should require additional information you may contact me at 704-825-8881.

Respectfully,

A handwritten signature in black ink, appearing to read "Darryl E. Kellough", with a long horizontal flourish extending to the right.

Darryl E. Kellough  
Southside Constructors, Inc.
